Response to Amendment

Applicants' amendment filed on July 12, 2006 has been entered and forwarded to the examiner on July 25, 2006.

Therefore claims 1, 3, 6-15 and 18-22 recited are currently pending in the Application.

Claims 2, 4-5, and 16-17 were cancelled.

No further IDS have been filed after the one filed on December 16, 2004 (which was initially filed on October 30, 2003 and considered and the initialed PT0-1449 enclosed with the O/A mailed on December 16, 2004).

Allowable Subject Matter

Claims 1, 3, 6-15 and 18-22 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitation of the dependent claims, in such manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The applied prior art fails to teach a combination of all the claimed features as presented in independent claims 1 and 14 which include the combination of elements recited in claim 1 and the combination of steps recited in claim 14 and further according to the affidavit / declaration under 37 CFR 1.132 by Mr. Vincent Houstma filed on November 28, 2005 (entered December 1, 2005) the applied prior art of record does not disclose /teach a semiconductor absorber and dissipative

conductor combination that is configured to dissipate electromagnetic radiation having a center frequency within the range of about 1 gigahertz and about 1000 gigahertz.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
